POWERED  
STUDIO MONITORS

LSR305 POWERED 5" STUDIO MONITOR  
LSR308 POWERED 8" STUDIO MONITOR

## THE FIRST STUDIO MONITORS TO INCORPORATE JBL'S **IMAGE CONTROL WAVEGUIDE**

### FOR UNPRECEDENTED DETAIL, VIVID IMAGING, AND A ROOM-FRIENDLY BROAD SWEET SPOT

Introducing the 3 Series Powered Studio Monitors. The first to incorporate JBL's groundbreaking Image Control Waveguide, providing detail and depth like never before. Micro-dynamics in reverb tails, the subtleties of mic placement are clearly revealed. A realistic soundstage creates the tangible sense that there is a center channel speaker. 3 Series' broad, room-friendly sweet spot means everyone in the room hears the same level of dimension and transparency. With legendary JBL transducers, custom-designed power amplifiers, and the waveguide technology from our flagship M2 Master Reference Monitors, the surprisingly affordable 3 Series will boost the image in your studio.

# 3 SERIES | POWERED STUDIO MONITORS

## LSR305 5" POWERED STUDIO MONITOR

Frequency Range: 43 Hz - 24 kHz  
Crossover: 1675 Hz 4<sup>th</sup> Order  
Acoustic Linkwitz-Riley

Max Peak SPL: 108 dB  
Amplifier Power: 80 W  
HF Trim Control: +2 dB, 0, -2 dB  
LF Trim Control: +2 dB, 0, -2 dB  
Maximum Peak Input Level: +23 dBu  
AC Voltage: 100-240 VAC +/- 10% 50/60 Hz  
Input Types: 1 x XLR, 1 x TRS Balanced

## LSR308 8" POWERED STUDIO MONITOR

Frequency Range: 37 Hz - 24 kHz  
Crossover: 1800 Hz 4<sup>th</sup> Order  
Acoustic Linkwitz-Riley

Max Peak SPL: 112 dB  
Amplifier Power: 100 W  
HF Trim Control: +2 dB, 0, -2 dB  
LF Trim Control: +2 dB, 0, -2 dB  
Maximum Peak Input Level: +23 dBu  
AC Voltage: 100-240 VAC +/- 10% 50/60 Hz  
Input Types: 1 x XLR, 1 x TRS Balanced

## JBL'S REVOLUTIONARY IMAGE CONTROL WAVEGUIDE IS THE MAGIC OF 3 SERIES INCREDIBLE IMAGING

The Image Control Waveguide was developed for JBL's new flagship M2 Master Reference Monitor and with the introduction of the JBL 3 Series, is now available for the first time in an affordable, compact reference monitor. Its patent-pending design precisely controls the sound emanating from the speaker in the vertical and horizontal planes ensuring the representation of your mix is neutral and accurate at the listening position.

### INCREASED HIGH FREQUENCY DETAIL

You'll experience greater depth and ambience in recordings. Subtle details can be heard, even in a dense mix.

### AN EXPANSIVE SOUNDSTAGE

With the Image Control Waveguide, 3 Series produces a soundstage with exceptional depth and dimension, and a stereo panorama that extends beyond the speakers.

### ROOM-FRIENDLY, WIDE SWEET SPOT

3 Series delivers neutral sound across an unusually large working area regardless of room acoustics, so you don't have to be right in front of the speakers to make accurate adjustments to your mix.

### BIG POWER, BIG SOUND

JBL's efficient Class D high and low frequency amplifiers in the LSR308 and the LSR305 provide ample power giving 3 Series abundant output and dynamic headroom needed for the most demanding production styles.

### TRANSDUCERS THAT DELIVER THE TRUTH

JBL Transducers are legendary for their performance. The long-throw woofer and composite Neodymium tweeter are designed from the ground up to reproduce powerful transients and micro dynamics with deep bass and smooth highs to 24 kHz.

### JBL PATENTED SLIP STREAM™ PORT

The patented JBL low frequency port design works in concert with the 3 Series woofer for accurate bass response at all playback levels. The double-flared shape of the port is precisely calculated for greater low-frequency extension.
